OVERVIEW

HOW TO BUY

CUSTOM SIZES:

In addition to standard sizes, we are able to manufacture custom size mattresses and box springs for antique beds, campers, waterbed replacements, boats and other needs you may have. Some of the most common special sizes are listed in the table below:

SIZE	WIDTH*	LENGTH*
CALIFORNIA KING	72"	84"
CALIFORNIA QUEEN	60"	84"
SUPER SINGLE**	46.5"	81"
THREE-QUARTER	48"	75"
THREE-QUARTER SHORT	48"	72"
TWIN EXTRA LONG	38"	80"
FULL EXTRA LONG	53"	80"

* Length and width dimensions for custom size mattresses and box springs have a tolerance of $\pm 1 \frac{1}{2}$ ".

* Please note that while some local manufacturers will make just about any size you request, you may have trouble finding sheets and other bedding to fit your custom mattress and box spring. There are catalogs that sell many special size sheets. You may also buy a flat sheet for a size larger than your custom mattress and tuck it under.

** A standard Super Single is approximately 48" x 84". At The Original Mattress Factory, our Super Singles finish at approximately 46.5" x 81", with a tolerance of $\pm 1 \frac{1}{2}$ ". This smaller size makes it easier to put on sheets and make the bed.

Please contact The Original Mattress Factory location nearest you for model availability, pricing or any other questions you might have regarding custom sizes or specialty items.
